Murphy handed down his decision in support of the mortgage of \$127,000 and in favor of the plaintiff, the Central Trust Company. MIRACULOUSLY ESCAPES DEATH

J. S. GRAHAM of Carson City and a teamster at the Loope mines were thrown Wednesday afternoon from a wagon containing fifty boxes of giant powder, the wagon was overturned and the frightened horses stepped up and grinding their contents of explosive sticks to fine powder. But no one was hurt, the powder, by a miracle, did not explode.

The thrilling experience occurred within a mile from the Loope mine in Alpine county and is best told by Graham.

"It was killing time," he said yesterday, "by fishing up the stream, and was on my way back to the mines when I was overtaken by Jack Hays who was hauling giant powder and I boarded the wagon. On turning a curve the horses stepped up and ran off the grade carrying the wagon with them. Hays and I jumped just in time. One of the horses fell to the ground, but the rest of the wagon landed in the greatest confusion. Before we could get the horses out of danger they had trampled many of the boxes to kindling wood, and crushed the sticks of high explosive to finest powder. No one will never know why it was not exploded and we blown to kingdom come."

PARTY GRAFTING DENOUNCED AT DEMOCRATIC SESSION

Republican Methods Outlined in Telling Speech at Indiana State Convention

GREETINGS ARE SENT TO WILLIAM J. BRYAN

INDIANAPOLIS, June 7.—Democrats of Indiana, in convention today adopted a platform strongly endorsing William J. Bryan for the presidency.

Benjamin F. Shively, of South Bend, former representative in congress from the thirteenth Indiana district, was chairman and in his address he said:

"The use of governmental power for private purposes is the beginning of what is today called graft. The result of the old system of farming out the powers of government has been to bring into the Republic a confederacy of special privileges that is today contesting for supremacy with the American people."

Foreed to Stand Pat

"In exchange for the favors it has received and expects to receive, it has for many years capitalized the Republican party," organized, financed its convention, secured the election of its candidates and required them to stand pat after they were elected."

"The McCulls, McCurdys and Alexanders had witnessed the trust properties of government turned over to private interests and its power farmed out for selfish gain."

Appropriate Public Fund?

"Republican United States Senator Mitchell had witnessed the wrongful appropriation of the public property to private individuals under the form of law, and he and his associates attempted the wrongful appropriation without the sanction of law, of \$30,000 acres of the public land, and he died on his way to prison. A Republican United States Senator from Nebraska peddled out the postoffice of his state for his own gain as a hawker peddler and only escaped conviction."

Common Grafters

"Platt and Depew—men long in the public life of the country and who had been regarded as paragons of official and business integrity—are at last discovered to have been the common sort of common grafters."

"The disease itself suggests the remedy. It began where public power was first diverted from public purposes and made the source of private property. Withdraw privilege and the corruption disappears. Let all men, all interests, all occupations stand equal under the law and all men will then have a common interest in clean and just government."

Referring to William J. Bryan Shively said:

"That which is today eulogized and approved as broad statesmanship and enlightened patriotism in Theodore Roosevelt was only a few years ago denounced as reactionary, revolutionary and unpatriotic in William J. Bryan. The after sight of the one is most equal to the foresight of the other."

The resolutions says in part:

"Democracy of Indiana sends greetings across the sea to that wise and conservative statesman, unfaltering patriot and superb leader, William Jennings Bryan, and pledges its voice in convention and the electoral vote to Indiana to him for President in 1908."

INGALLS' DEALINGS IN CARSON INVESTIGATED

THE bill of Major G. W. Ingalls, which was the original cause of the investigation into the affairs of the Sparks schools district by the Grand Jury, aggregates \$108.00 and is given below in full. It will be seen that in addition to paying the major's traveling and hotel expenses at Carson City, his street car fare to and from Sparks, and Reno, and a salary of \$3.50 per day was allowed him while at Carson, his salary amounting to \$32.50. The bill is as follows:

Sparks School District No. 29, Dr., to G. W. Ingalls.

To expense incurred in connection with the Sparks school bond bill and visits, 5 trips to Carson and legislature as per itemized account..... \$16.00

15 days at hotel..... 30.00

Typewriting bond bills..... 6.15

Telephoning to school superintendent of schools from Carson City..... .35

Livery and street car fare to Reno for Sparks school bill..... 4.00

15 days service at Carson City at \$3.50..... 52.50

Total..... \$108.00

Slowly the stamp of public disapproval seems to be centering on the actions of Major G. W. Ingalls in the Sparks school scandal which is now being publicly aired. The consensus of opinion among the people of Sparks seems to be that Major Ingalls is trying to clear his own coat tails by shifting the charges of graft on to others.

Daily Begins Investigation

Attorney Duly of Sparks is now in Carson City where he has been seen by the people of the railroad town to investigate the bill put into the board of school trustees for services alleged to have been rendered by him in lobbying for the school bond bill at the last session of the state legislature.

NICHOLSON GAINS HIS FREEDOM

J. H. NICHOLSON, who has figured in the lime light and police court recently, in connection with various and sundry lapses from the path of sobriety and rectitude, particularly with reference to the utterance of bogus checks on a local bank in which he had neither funds nor credit, broke out of the city jail yesterday afternoon just before the shroud of sable night descended and was buttressed up with stars.

Nicholson found a friend. His name is Pendergast, a shuffler of cards in a local resort. Pendergast is said to have voluntarily appeared as a good Samaritan in Nicholson's behalf. He put up \$4 for the roving newspaperman's release, and a few minutes later the latter stepped out of the police station a free man—free to go elsewhere and repeat the dose on credulous acquaintances.

Nicholson was fined \$6 for drunkenness in the police court. He had served two days, leaving a bill of only \$4 between him and liberty. The only charge against Nicholson before the police department was for temporary intoxication. No complaint having been made against him with reference to making out the bank checks, there was no alternative for the police department but to let the man go.

EIGHT DIE FROM DEADLY WHITE DAMP IN MINE

Montana Experiences One of Most Disastrous Mining Accidents in Years

FRANTIC WOMEN ADD TO HORROR OF SCENES

NAACONDA, Mont., June 7.—One of the most serious accidents in the history of coal mining in Montana has occurred in the mines of the Northern Pacific at Rocky Fork, near Red Lodge, Carbon county.

Eight men are dead, all victims of the fatal white damp that filled the corridors of the mine after the fire which started Wednesday. Their bodies have been recovered but the story of the work of rescue parties is a tale of unexcelled bravery and heroic self sacrifice. Of the dead, two are members of one of the parties that entered the mine in the effort to reach the men known to be there.

Rescuers are Overcome

The fire which caused the trouble started in incline No. 6 Wednesday. This was believed to be under control after a long, hard fight. At 7:30 this morning the first rescue party started down No. 6 incline, proceeding cautiously as it was found there were still traces of the fire. When they reached a depth of 1,200 feet, all were overcome. Seven managed to struggle back to where they could be reached. By this time a dense volume of smoke, burst from No. 6 incline and the air in No. 6 was so foul that volunteer rescuers were driven back. At 10 o'clock another rescue party was formed.

Finding the Dead

The scene about the mines began to resemble a frantic women and crazed men run about, hampering the work of rescue. The second volunteer party was successful. The fumes were removed and the smoke forced back out of No. 6 incline. In the end, the bodies were made of canvas and water were let in from vein 4-2. The rescuers were let down slowly in cars. They first found the unconscious forms of six of the first rescue party, which were hurried to the surface. All were revived but Roy Carey and Joe Dracey.

It is believed that the injured will not be recovered. Further down the incline six other bodies were found all beyond hope of restoration to life.

GANG MAY NOW BE BROKEN UP BY THE POLICE

Vincent Elliott Arrested and Charged
With Complicity in Recent Burg-
laries—Claimed He Has Made Con-
fession Implicating Others

Vincent Elliott, a young man with very respectable connections in Washoe county, is being arrested by the police for complicity in a series of robberies committed in Reno and Sparks recently. He is said to have made a confession late yesterday afternoon of the complicity of Elliott in the recent robberies. The confession implicates William H. Kelly, a sporting man and at one time a dealer in a local gambling resort. Houses and stores were robbed both in this city and Sparks. The squad also includes a third man whose name Elliott says he does not know.

Elliott denies that he had any hand in the actual robbery, but admits it is said to helping dispose of the plunder.

Among the places robbed were the stores of George Herbert at Sparks, Dushell & Ward in Reno, Domino saloon and the Swiss-American Hotel. Among the places where a robbery was attempted are the Reno Mercantile Company and the Edward Schmidt Store.

The stolen goods were said about the city and Elliott is said to have admitted that he knew some of the stolen property into the river through fear of being caught. The stolen property includes clothing, valises, field glasses, watch chains and an assortment of miscellaneous goods.

The whole lot of the general description given is located in the coal house of Tony Capetani in the rear of the Tuscany Hotel on Lake street. Capetani stated to the police that he had no information of the nature of the stolen goods, but admits that he bought a watch from one of the gang. He claims that the robbery used the coal house as a cache without his knowledge. The police are investigating the coal house cache.

Kelly is also under arrest and locked up. He was taken in as a suspect some days ago. He denies all knowledge of the robbery. Kelly is well known here. They have been together in Colorado, Kansas, and other Western points for a year or two before showing up in Reno a few months ago.

FIRE ALARM WIRES TO BE LAID IN CONDUITS

At the meeting of the City Council last night it was decided that the laying of the wires will be done in the morning instead of in the evening. The house set 9 o'clock.

John Kearns, assistant division manager for the telephone company, appeared before the council and stated that the company would place an extra conduit in the accommodation of the fire alarm wires. He made a generous offer to the city which was accepted. He agreed to place the conduit at the disposal of the city at a nominal cost per foot—just enough to make the cost of the conduit.

Manager Kent of the Barber Asphalt Company was also before the council and reported on the matter of the proposed paving of the two blocks of Second and on Lake streets. Little of the property holder who has not yet signed up with the paving company is not in town and Kent said he will see that the interested and secure his name on a contract if possible. That he stated is the only thing preventing the company from going ahead with the paving on Second and on Lake street between Second and Commercial Row.

The matter of the naming of a time and place for the disposing of the sewer until the next meeting of the council.

HOTEL MAN DIES AFTER LINGERING SICKNESS

Lulu H. Yphantigauz, a well known Frenchman, one of the proprietors of the Commercial Hotel died about 5 o'clock yesterday afternoon after a protracted illness from typhoid fever and complications. The attending physicians have been doing everything in their power for several days to save the patient. Beautiful wreaths attached to the front door of the hotel informed the passer-by of the death. He was not married.

Arrangements for the funeral are now being completed. The services will probably be held on Sunday afternoon and the burial will be in the Reno cemetery probably at the same time. Final arrangements of the obsequies will be made later.

Funeral arrangements will be in the hands of Perkins Oliver & Gilling.

PRETTY GIRLS MUCH IN DEMAND IN RENO AS DOMESTICS

THREE neat natty and nice looking domestics arrived in Reno last Tuesday from San Francisco, desirous of going to work. They are the two Misses McNamee and Miss Margaret O'Brien. The girls called on St. Mary's church as soon as they could locate him and informed the willing pastor of St. Mary's of the object of their coming to this city. Father Tubman saw that the girls had accommodations for the night at the Golden Hotel and made known in a quiet way that there were three competent girls in Reno looking for places as domestics.

All the girls immediately came into demand. By Wednesday evening the two Misses McNamee and Miss O'Brien had situations in good Reno families, and if the girls had remained in the city instead of three all could have found desirable places at excellent wages.

In a few days after the San Francisco earthquake and fire there were about 2,500 girls without situations at one employment agency in the city. The two Misses McNamee and Miss O'Brien overheard a conversation that Reno is one of the most prosperous and energetic towns on the surface of the earth, and that good wages are paid here every Saturday night or oftener and they decided to try their luck in Reno. On arriving here placed a small advertisement also in the want columns of the Journal which of course helped some.

There are other jobs of the same kind awaiting competent domestics in Reno. The two Misses McNamee and Miss O'Brien are fully aware of this fact and have written accordingly to their friends in San Francisco that the demand for nice girls with a domestic turn of hand in Reno is much in excess of the supply.

DUAL ESCAPE FROM STATE INSANE ASYLUM

P. T. Ginnis and Freeman Regan
Liberty Through Assistance Sus-
pected to Have Been Given from
Outside—Iron Bar Found in Cell

Two inmates of the State Insane Asylum P. T. Ginnis who held up the Oberon recently, and a man named Freeman, made their escape at an early hour yesterday morning. Both are still at large and last night there was little prospect that their prospects would be located soon.

Ginnis has attempted to commit suicide several times while confined in the County Jail. Once he attempted to set fire to himself.

Freeman is a violinist of some merit. One of his idiosyncrasies took the form at one time of attempting to murder Miss George Sauer.

Dr. S. C. Gibson, the superintendent, says they had outside assistance in making their escape. The girls were found piled apart and a large iron bar was left in his cell. It is suspected that Freeman was aided by an attendant of the asylum. Superintendent Gibson is making an investigation.

CLAIMS ROCKY HILL IS A LISTED STOCK

J. E. Halliday of the Reno Stock
Brokerage Company Makes Em-
phatic Denial of Statements Con-
tained in the Fulton Press Letters

John E. Halliday, of the Reno Stock Brokerage Company makes a vigorous reply to the statement made in press letters from the J. M. Fulton Brokerage Company with reference to the assertion made by the latter that the Rocky Hill Mining stock is not listed on the San Francisco exchange. Halliday declares that it is listed, and to substantiate his assertion says he will place \$5,000 in any bank in Reno as forfeit to any one proving the contrary.

The statement taken up by Halliday is as follows: "We notice that bid and asked prices of Rocky Hill Mining stock are being quoted in the Reno papers. This would lead the public to believe that the stock is being sold on the San Francisco Stock Exchange. It is not, nor has it ever been listed. The president of the Rocky Hill Mining Company Mr. Wilhelm informed us today that he had paid the money for the stock and had been told that it was being sold for the information of the public we want to say that they, as well as Mr. Wilhelm are being deceived."

"The public can perhaps be made to buy stock in an unlisted mine by such methods. They supposing that daily sales at prices quoted are made. Any purchaser of the stock has a just cause for action."

"That," said Halliday last night "is an indirect attack on us and is absolutely incorrect. The stock is listed and has been listed ever since April 15th. We have the receipt for the payment of the listing fee and other proof of my assertions at our office. Those who will be shown to anyone having an interest in the matter entitling him to see them."

I will give \$5,000 to anyone proving that the Rocky Hill stock is not listed. Our San Francisco agent has orders from us to purchase all this stock he can get at 20 cents a share and the Reno Stock Brokerage Company will take all it can get at that price.

"As to the reason for the assertion made by the Fulton concern I will repeat that it is an indirect attack on us calculated to injure our business. The stock has not yet been printed on the official list. After a stock has been listed it is usually a week before the name is inserted on the official list. This is a mere matter of printing which has nothing whatever to do with the fact that the stock is on the list. Two days ago the application was made and accepted and the receipt for the \$100 which was paid to list the stock was passed to us. A week ago, probably, has not been printed since that time. It is not in the official list. But it is listed just the same, and as legitimate and completely as any other stock on the market, and I have \$5,000 to bet that it is."

SICKNESS IN RENO

More Cases of Illness This Spring Than in Former Years

Physicians and druggists say there are more cases of illness in Reno this spring than in former years. Perhaps this is due to the fact that the weather is so much warmer, but the fact is that the number of cases of illness is increasing. The most common ailments are colds, coughs, and bronchitis. These ailments are caused by the change in weather and the fact that the people are not used to the warm weather.

In fact, the number of cases of illness has been so much larger than in former years that the druggists are having to keep a large stock of medicine on hand. The most common ailments are colds, coughs, and bronchitis. These ailments are caused by the change in weather and the fact that the people are not used to the warm weather.

Unknown Friends—There are many people who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy with splendid results, but who are unknown because they have hesitated about giving a testimonial of their experience for publication. These people, however, are none the less friends of this remedy. They have done much toward making it a household word by their personal recommendations to their friends and neighbors. It is a good medicine to have in the home and is widely known for its cures of colds, whooping cough, and all forms of bowel trouble. For sale by all druggists.

How to Break Up a Cold—It may be a surprise to many to learn that a severe cold can be completely broken up in one or two days. The first symptoms of a cold are a dry, loud cough, a profuse watery discharge from the nose, and a thin, white coating on the tongue. When Chamberlain's cough remedy is taken every hour on the first appearance of these symptoms, it counteracts the effect of the cold and cures it within a day or two. For sale by all druggists.

FORD CASE HAS BEEN POSTPONED

Will Be Heard on July 3rd Unless Matter is Adjusted Out of Court

The case of Mrs. Emma Ford vs. Ellen McNeese, which was scheduled to take place in the Justice Court this morning, was postponed by Judge Pollock until July 3rd. This is the second case between the two parties. In this case Mrs. Ford is suing McNeese for an alleged bill amounting to \$30 for board and lodging and washing. The first case was heard Wednesday and was won by Mrs. Ford.

It is thought that the case will be adjourned out of court by the principals and that it will not come to trial. Steps to the end are now being taken by the attorneys and principals. But one case was recorded in the Police Court yesterday for some time and apparently making no effect to obtain work. He was given until Saturday by Judge Pollock to leave town or go to work.

FIGHTERS PLAN TO MEET ON JULY FOURTH

Abe Attell Wants to Fight Frankie Neil, Tommy Burns Would Battle With Jack O'Brien and Nelson Any Man at 133 Pounds

LOS ANGELES, June 6.—Abe Attell, the featherweight, is matched to fight Frankie Neil, the San Francisco wonder, on the afternoon of July 4th for the championship belt which Manager McCarey has had made and for a fat purse. The youngsters were previously matched to fight, but the San Francisco disaster interfered with their plans and Neil went east. Now McCarey has perfected his plans and the lads will go into the ring at 123 pounds. McCarey says he will take no chances this time, and the men will be required to weigh before a club representative every day for a week previous to the fight. McCarey has also announced that Joe Bulwer, the English champion, will be brought over to fight the winner of the Attell-Neil bout.

Burns and Jack O'Brien. NEW YORK, June 7.—Tommy Burns, the western heavyweight, has received an offer from a club at Seattle, Washington, to fight Philadelphia Jack O'Brien in a twenty round bout on the night of July 4. Burns says it is his bout with Fitzsimmons at Essington, Pa., is not allowed to take place, he will take on the O'Brien match and will accept the acceptance to the matchmaker.

"Battling" Wants a Match. SAN FRANCISCO, June 7.—From present appearances Nelson will soon be matched for another big fight. It is hoped there will be more doing this time than in the recent Nelson-Herrera fight. Nolan told Eddie Graney that he would match Nelson at 123 pounds against any man in the world. This may mean a match with clever Joe Gans.

Present plans are to hold the fight on September 4th. July 4th would be a desirable day, but President William Crozier Harrison of the Olympic club, is planning for a great festival of sports in Golden Gate Park on that occasion. This will be free to the public. Graney would not attempt to run a show in opposition on that day, as he has the kindest interest in the Olympic club.

Cyclone Kelly Knocked Out. SAN DIEGO, June 7.—Bill Woods, the colored middleweight, knocked out "Cyclone" Kelly in the eleventh round on Monday night here. Woods was the aggressor and even if there had not been a knock-out he would have won the decision.

Champion Will Marry. OAKLAND, June 7.—"Battling" Stein has formally announced his engagement to Miss Marguerite Beangero, with whose people he is now residing at San Anselmo. Nelson says that his marriage will not take place at once, but that the date is not so far distant.

BRITT AND TERRY ARE HELD BY COURT

Participants, Managers and Attendants at Recent Prize Fight in New York Must Stand Trial—Law Made a Mockery, Says the Magistrate

NEW YORK, June 7.—Terry McGovern and Jimmy Britt, the pugilists, Keith Canary, A. C. and Tim Hurst, who refereed the bout between McGovern and Britt before the Twentieth Century Club, about two weeks ago, today were held for trial in the Court of Special Sessions by Magistrate Brech. They are charged with the violation of that section of the penal code referring to prize fighting. Bail was fixed at \$500 in each case. Twelve other persons, including fighters, waiters and ticket sellers, also were held for trial on a similar charge. In his opinion holding the accused, Magistrate Brech said: "The uncontradicted testimony of two police officers shows that charges of admission were made. There seems to have been a defiant and reckless disregard of the penal statute under the supposed protection of a delusive multitude of so-called members was a rude attempt to make the law a mockery."

CALIFORNIA GAME PRESERVES

KING OF THE DESERT NOW IN THIS CITY

Miner Who Made the Recent Wonderful Discovery at Round Mountain Is Spending a Few Days in This City on His Way to Denver

L. R. Scott, better known as the King of Round Mountain, arrived in Reno yesterday from Manhattan and will spend several days here, after which he will leave for Colorado, where he will visit with his parents and incidentally invest a little of his immense fortune in Denver real estate.

"Scotty" is the man who made the big strike at Round Mountain on March 2nd. The scene of the strike is about fourteen miles north of Manhattan and is said to be one of the greatest made in the history of the State. One specimen picked from the surface of the Antelope claim weighs sixty pounds and is covered with a layer of pure gold. It is said to be one of the finest specimens in existence.

"Scotty" has six well-defined ledges on his property and the ore averages \$88 to the ton and is all free milling. Specimens picked up on the claims have assayed as high as \$212.00 per ton. Active development work on the claims is now going on and the ore being sacked and shipped as fast as taken out.

STOCKS AND MINES

Daily Mining News Letter and Criticisms by the J. M. Fulton Brokerage Company

We notice that bid and asked prices of Round Mountain stock are being quoted in Reno papers. This would lead the public to believe that the stock is being called on the San Francisco Stock Exchange. It is not, nor has it ever been listed. The president of the Round Mountain Mining Company, Mr. Wilhelm, informed us today that he had paid the money to have it listed and had been told that it was being called, but for the information of the public we want to say that they, as well as Mr. Wilhelm, are being deceived. The public can perhaps be made to buy stock in an unlisted mine by such methods, but supposing that daily sales at prices quoted are made. Any purchaser of the stock has a just cause for action. Many of our best friends hold shares in this property, and we believe it a good mine.

Stocks on the San Francisco Exchange today are selling lower, affording opportunities for investment at present prices. Many investors are making advantage of the low figures. The mines never looked better than now. Booth and Mohawk are holding their own. There is a large amount of activity in the stock market, and the people who understand are holding on to their stocks and buying up more while the timid ones are selling. We recommend that holders of stocks in mines of merit do not part with them at present prices.

We are getting daily quotations from the New York, San Francisco, Oakland and Goldfield Stock Exchanges. Information regarding mines can be obtained by letting us know your wants. Send us your name and we will mail you our weekly Market Letter, giving the latest information regarding work done on various mines.

CLAIMS OF INYO ARE NOW BEING HEEDED

Investigators are flocking to the District to examine the claims made for it and are pleased with the opportunities offered

That the attention of the country is being attracted to Inyo county is gratifying news to the residents of that district and to the men who have placed their faith in a district too much overlooked.

Another letter from Secretary Sivall of the Inyo club is appended and like his other communications is worth reading and heeding. Here is the letter:

"That the battle is not to the strong, nor the race to the swift, but to him who endures to the end, is being verified by our experience."

"We have, as you know, with your valued help, been trying for some time to impress upon those whose interests lead to such matters, the importance of considering the territory hereabouts as a gold-carrying area."

"For quite a while we were heartily discouraged by the apparent indifference with which our endeavor were received, and forgetting the assurance in above promises they came, despaired of success. Therefore we are happy, Mr. Editor, to be able to inform you that day is breaking on our efforts and we are beginning to see results. Isn't that pleasing news to you, considering your part?"

"During the last week several investigators have appeared here, induced to come by the information we supplied them, to examine into our pretensions and what is more gratifying yet the fact that, so far, none of the undertaking. All and each seem pleased with the prospect. Also our mail is increasing daily, loaded with inquiries for further particulars."

"As we said before, gentlemen, your part and manifest sympathy and assistance we hasten to acquaint you with these improving conditions. That we, ourselves, know how numerous are the opportunities to be had here, is of no avail, unless they can be depended upon others, which is a difficult matter at a time when the whole country is ablaze with daily gold discoveries of unprecedented import in a nearby and adjoining state."

"Nevertheless, as said before, we have much to encourage us at this particular moment."

"The claims of Inyo county, California, demand recognition as a gold-carrying country. An examination of prospects here never disappoints. Any mining man who comes here relying upon our assurances will have no cause to regret his journey."

"We have everything to justify our assertions and promises, and we will, when demand here permits, demonstrate the presence of riches equalling any other 'acc in the world.'"

The Grain Market

CHICAGO, June 7.—Sentiment in the wheat pit was extremely bullish all day and there was a strong demand from shorts and commission houses. The continuance of the wet weather in the northwest was chiefly responsible for the strength and activity of the market. Early in the day the market was influenced somewhat by the strength of Corn and Oats, but after demand here made the market independently strong. July opened a shade to 1/4c higher at 81 1/2c to 81 3/4c, advanced to 83 1/2c and closed strong at 1 1/4c to 2c higher at 85c.

Trading in the Corn pit was active and the market was strong. The market closed at the highest point of the day. July opened 1/4c to 3/8c higher at 59 1/2c to 59 3/4c, advanced to 51 1/2c and closed 1 1/4c to 1 1/2c higher at 61 1/2c to 61 3/4c.

Usual activity prevailed in the Oats pit and the market was exceptionally strong. An advance of 1c a bushel in the price of cash Oats stimulated the demand for options. July opened 1/4c to 1 1/2c higher at 35 1/2c to 36 1/4c and closed 3/8c higher at 36 1/4c.

Provisions were strong on active buying by commission houses and packers. At the close July Pork was up 2 1/2c @ 30c at 18 7/8c to 18 7/16c. Lard was up 7 1/2c at 8 5/8c. Ribs were 2 1/2c @ 10c higher at \$9.05.

TRADE AND FINANCE FROM WORLD MARKETS

Stocks Not Active, But Fairly Steady—Money Rates Easy—Silver Lower and Quiet—Grain Markets Firm—Wool Steady

NEW YORK, June 7.—Operations by professional organization were still clearly discernible in the stock market today and made up the largest proportion of the total dealings. St. Paul was still bought on belief in coming stock subscription rights and the known approach of a new issue of New York Central stock already authorized made the same explanation available for the movement in that stock. Union Pacific was the subject of rumors of a distribution on Southern Pacific, from which it would benefit by its large holdings. Illinois Central was affected by a belief in a dispute for control of the property. Reading and Amalgamated Copper moved under the influence of off-repeated rumors and inferences.

San Francisco sent another important consignment of cash to New York by telegraphic transfer through the sub-treasury facilities, and foreign exchange rates made further progress towards the gold export point, still some distance away, however. Bankers admit that with continued flow of money to this center and easing of interest rates, some of the recent large imports of gold are likely to be returned whence they came.

The price of silver suffered a further violent reaction from its recent extreme rise, thus demonstrating that the rise was due to an over-bought condition of the market.

PRICES BEING GOOD WOOL BEGINS TO MOVE

Three Million Pounds Start on Way to Boston—Market Profitable in Nevada, California and Oregon and Growers Will Not Hold Their Crop

Mary's little lamb, unshorn, never had more wool on its back than the sheep along the line of the Nevada, California & Oregon Railroad have this year, and the price of wool is good. The Salt Lake City dispatch of recent date stating that the wool growers of Idaho have decided to ship their fleeces East and wait for better prices, has not affected the wool growers of the three States mentioned, as the railroad company has already begun to move wool in the grease.

Last year the Nevada, California & Oregon Railroad carried 2,000,000 pounds of wool on its way to market. Traffic Manager J. M. Crawley stated yesterday that the estimate placed on the wool crop for this year is somewhat in excess of that of last year.

"Wool in the grease" has already begun to move on our road. There is nothing the matter with the price. It is good and the growers regard it as good. They want to get rid of their wool while the prices remain good. Most of the wool is shipped from Madeline, in Lassen county, the terminus of our road. The wool of Lake county, Or., is also tributary to Madeline. Since the dispatch to Salt Lake City the destination of most of the wool is Boston. It will continue to be shipped till late in August or early in September."

EDITORIAL COMMENT

Hill and His Roads Reed Smoot of Utah

WHEN people talk about the rapacious railroad magnates, they incline to count Jas. J. Hill of Minnesota, among the exceptions. Mr. Hill, though quite as shrewd and forehanded as any Scotch-Irish-American-Canuck who ever lived, is regarded as a very useful man in the economy of the great Northwest. With no pretense whatever of being a philanthropist, he has built up whole states by giving them a chance in advance of their settlement, to send their products to market over his lines of railroad.

He is now about to do a little more work of the same sort. He is going to build some 1,300 miles of railroad in the Canadian Northwest, from Winnipeg to the Pacific, opening up vast areas in that frosty but fertile region. And he declares that he and a few others are going to build it actually out of their own pockets. Dispensing entirely with the usual heavy Canadian Government subsidy, dispensing with all public subscriptions to the stock of the enterprise, dispensing with aid from Mr. Hill's other concerns, it is to be constructed out of private resources and become therefore a private speculation.

As this means an original outlay of at least \$32,000,000, it is certainly business on a prodigious scale. But maybe it can be done. It seizes and holds the admiration. The scheme even scares the Canadian politicians. They think that Mr. Hill is going to run away with the profits of Canadian railroads. But how can they forbid him to develop their country and serve their people?

There is only one "if" or "but" about this Hill scheme—it ignores the growing conviction on the part of the people that a railroad, as a means of transportation, is not to be regarded altogether in the light of a properly private affair, like a farmer's hay-cart or wagon body. Every time the people speak of "Jim Hill's railroads," they begin to wonder if they ought not to have a little interest in them.

ARMOUR is responsible for the assertion that the beef trust will lose \$10,000,000 by reason of the disclosures of the filthiness of their packing plants. It is lucky for him and his kind that the opinion of the people cannot assume definite form; else he could not reckon his loss in dollars alone.

THE Republican lobbies of the House of Representatives in Washington are now furnished with mourning benches for the accommodation of those Republican statesmen who have visions of Democratic successors, and there are many who take this pessimistic view of matters.

WE are a volatile people. Yesterday it was rate legislation; today it is meat inspection, and the conviction is growing that that is all it will amount to. Some day, let us hope, a man will arise who will be strong enough to push one of these affairs to a finish.

THERE are no volunteers for the position of presidential envoys since the untimely fate of Mr. Chandler. In future the President will have to draft one of the Kitchen cabinet for such a dangerous job.

REED SMOOT has been a Senator from Utah for three years. He is an able man, honest in the business sense, and would be a creditable Senator but for several things.

These things are that he has taken an oath pledging him to an absolute obedience to the leaders of a church which sanctions polygamy; that he is actually a high-functionary or "apostle" of this church, one of whose tenets is that it has a right to nullify the laws of the United States; that, as an apostle, he has participated, even since the Senate hearing in his case, in the election of a polygamist as brother apostle; that, with the other leaders, he dictates State legislation that is hostile to federal regulation of polygamy.

It has taken the Senate about three years to find out these things about Smoot, but it seems to have found them out at last. The committee on privileges and elections has reported that he is not entitled to his seat.

There is nothing wrong with this verdict except that it is very much belated. But better late than never. Out with Smoot!

PRESIDENT ROOSEVELT has established a bad precedent. The other day a member of the New York legislature called a fellow member several kinds of a liar. The habit seems to be growing among our statesmen.

THE anonymous donors of \$200,000 and \$125,000 to the Union Theological seminary and \$150,000 to Barnard college should make themselves known. Unjust suspicion may be directed toward quite a number of us.

THE king of Spain is said to have promised his new queen that she shall do as she pleases. The fact that his bride outweighs him by about 60 pounds may have had something to do with Alfonso's concessions.

TO the credit of the Goldfield Miners' Union it can be said that the Industrial Workers of the World are having quite an industrious time of it working that conservative organization around to their way of thinking.

THE press-clipping bureau has been discontinued at the White House to spare the feelings of Private Secretary Leod about what the newspapers say about the "greatest man of modern times."

MRS. MARY ANN PERIGO, of Leon, Ia., who had lived to be 103 years old, recently died from a scratch given her by a pet kitten. But for this accident it is quite likely the woman would have lived to a ripe old age.

ALL meats intended for foreign consumption, it is alleged, are rigidly inspected. But the packers have proceeded on the assumption that the scraps are good enough for the home market. Pleasant isn't it.

COME down, Zaechens, come down, has been the cry of the railroad officials—and the coal operators slid down from their perch and deposited the hoodlum with alacrity.
